Question: 32

What is the minimum holding time of SA-106 Grade B, 1 inch thick material?

- A. 2.4 hours
- B. 2 hours
- C. 1 hour
- D. not specified

Answer: C

Question: 33

What is the working pressure of a 150 lb. flange, SA 350 Gr.LF6 CL 1, used at 400°F?

- A. 230 psig
- B. 200 psig
- C. 170 psig
- D. 140 psig

Answer: B

Question: 34

What is the minimum class flange that can be used if the material is SA 351 Gr.C F8C, temperature 950°F and working pressure is 1930 psig

- A. 800
- B. 900
- C. 1500
- D. This material can not be used at this temperature

Answer: C

Question: 35

The preheat zone shall extend beyond each edge of a pipe weld

- A. 1"
- B. 2"
- C. 2T
- D. 3T

Answer: A

Question: 36

What is the root face limitation as listed on the attached WPS and PQR

- A. 3/32"
- B. 1/8"

- C. No limit
- D. Not designated

Answer: D

Question: 37

If the supporting PQR is used, are the P-noâs correct on the attached WPS?

- A. Yes
- B. No
- C. Could be if properly preheated
- D. Not enough information

Answer: B

Question: 38

Is the thickness range on the WPS supported by the PQR?

- A. Yes
- B. No
- C. Re qualification is required by API 570
- D. Re qualification is required by ASME Section V

Answer: B

Question: 39

Is the attached PQR properly qualified?

- A. No, because RT is not allowed during PQR qualification
- B. No, because there are not enough tensile tests
- C. No, because peening is allowed by ASME B31.3
- D. Yes

Answer: B

Question: 40

What should have been the correct number and type of guide bends on the PQR?

- A. 6 side bends
- B. 2 face and 2 root bends
- C. 1 side, 1 face and 1 root bend
- D. No side bends required

Answer: D

Question: 41

According to API 570, a(n) is a person who assists the inspector by performing specific NDE testing.

- A. NDE technician
- B. Inspector assistant
- C. Level II inspector

- A. A certified welding inspector
- B. A responsible employee
- C. The welder's supervisor
- D. A welding engineer

Answer: B

Question: 43

Which of the following best describes API 574?

- A. code
- B. Standard
- C. specification
- D. Recommended practice

Answer: D

Question: 44

The potential for personnel exposure is deemed to be significant in which fluid service?

- A. Category M fluid service
- B. High pressure fluid service
- C. Normal fluid service
- D. Category B fluid service

Answer: A

Question: 45

When an injection point circuit for the purpose of inspection is designated, the recommended up stream limit of the injection point circuit shall be the greater of ?

- A. minimum 12 inches
- B. maximum 12 inches
- C. three pipe diameters
- D. both A and C

Answer: D

Question: 46

can cause flame detectors used to indicate a furnace or boiler fire to give false indications on control panels.

- A. Welding or related repairs on piping
- B. Piping alterations in the shop
- C. Ultrasonic inspection
- D. Radiographic inspection

Answer: D

Question: 47

After application of a non destructive evaluation technique, any resulting evidence is commonly referred to as

- A. A crack
- B. porosity
- C. a leak
- D. an indication

Answer: D

Question: 48

API 570 applies to piping systems for process fluids such as:

- A. Firewater
- B. Plumbing, sanitary sewers and storm sewers
- C. Raw, intermediate, and finished products.
- D. Piping systems on trucks, ships and barges

Answer: C

Question: 49

Which of the following applies to socket welds in piping systems?

- A. Should be avoided
- B. Should be used in all welded piping
- C. Should be welded using SAW only
- D. Should be avoided where crevice corrosion may occur

Answer: D

Question: 50

Each piece of magnetizing equipment shall be calibrated

- A. at the beginning of each shift
- B. at least once a year or whenever the equipment has been subject to major electrical repair

- C. whenever the technician feels like it
- D. at least once every 90 days

Answer: B

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

Exam Dumps: *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

Practice Tests: *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

Guaranteed Success: *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

Updated Content: *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

Technical Support: *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
