Question: 94

Which of the following best describes the Scrum Pillar "Transparency"?

- A. The whole process should be visible to everyone.
- B. The process should be visible to the key stakeholders.
- C. Significant aspect of the process must be visible to those responsible for the outcome.

Answer: C

Explanation:

Only significant aspects should be visible, not all the details. The process does not to be visible to everybody in the world.

Question: 95

The Product Backlog is baselined before the Sprint 0.

- A. False
- B. True

Answer: A

Explanation:

This statement is wrong because the Product Backlog is not baselined (fixed) and there is no Sprint 0 in Scrum.

- A. False
- B. True

Answer: A

Explanation:

All Scrum events listed in the Scrum Guide are mandatory.

Question: 98

Following Scrum, there can be a maximum of one release per Sprint.

- A. False
- B. True

Answer: A

Explanation:

If needed, you can have more than one release per Sprint.

Question: 99

Which Scrum accountability (role = outdated term) is owning the Sprint Backlog?

- A. The Product Owner
- B. The Scrum Master
- C. The Development Team

Answer: C

Explanation:

To "own" something means, that you are accountable for it.

Question: 100

Which of the following are mandatory in Scrum?

- A. Do Sprint Plannings.
- B. Do Daily Scrums.
- C. Have a Product Owner.
- D. Use Story Points.
- E. Use User Stories.

Answer: A,B,C

Explanation:

It is not mandatory to use User Stories or Story Points in Scrum, but it is recommended.

Question: 101

The Scrum Master can decide which Scrum Artifacts are required in the Scrum project.

- A. False
- B. True

Answer: A

Explanation:

Scrum defines which Artifacts are required in all Scrum project, not the Scrum Master.

Question: 102

How is budgeting done in a Scrum Project?

- A. Ideally budgeting is done every Sprint.
- B. Scrum doesn't need the team to care about budget.
- C. Budgeting is done based on the Product Backlog as a baseline.

Answer: A

Question: 103

The collaboration between the Developers and the Product owner is very important for the product .

Which of the following is the least productive way for the Scrum Master to improve this collaboration?

- A. The Scrum Master should act as a go-between for them.
- B. The Scrum Master should teach them techniques to improve it.
- C. The Scrum Master should suggest new collaboration tools.

Answer: A

Explanation:

Acting as a go-between is not a sustainable solution!

Question: 104

Which Scrum Event can be compared to the use of a "lessons learned meeting"?

- A. The Sprint Review.
- B. The Daily Scrum.
- C. The Sprint Retrospective.
- D. The Sprint Planning.

Answer: C

Explanation:

Sprint Retrospective is about discussing the way work was done and to find ways to improve it.

Question: 105

The Product Backlog should have just enough detail.

- A. False
- B. True

Answer: B

Explanation:

The Product Backlog will evolve. The amount of information will grow and change.
